

LISTEN. THINK. SOLVE.®

**Rockwell
Automation**

Process & Industry Leaders Summit

Please join Rockwell Automation, Irby, TriNova, and your peers at this FREE event as we provide you with process solutions to maximize productivity and help minimize risk.

Register Now

At this event, you can expect to:

- Collaborate with industry experts and peers on modern DCS architecture
- Learn about network security architecture and design
- Hear industry expert presentations and discussions

Participating Partners:

**Thursday, June 7
8:00 am – 3:30 pm CT**

TriNova

4485 Laughlin Drive
Mobile, AL 36693

For questions, contact:
Debbie Grabeldinger

Agenda

This event will consist of a selection of sessions during each time slot. You may choose which sessions you'd like to attend upon registration.

	Main Conference Room	Training Room 1	Training Room 2	Services Conference Room	Process Training Unit
8:00 - 8:30	Registration				
8:30 - 9:30	Safety Instrumented Systems (SIS): Critical to Safe Operation	Optimize Performance through Cloud Based Analytics	The Challenge of IT/OT Convergence in Manufacturing	Leveraging the Benefits of Integrating Your Power and Automation Control Systems	
9:30 - 9:45	Break				
9:45 - 10:45	Improve Efficiency and Yield with Model Predictive Control (MPC)	Advanced Analytics in the Modern Plant	Creating a Robust and Cost Effective Industrial Network for Today and the Future		PlantPAX Overview and Demonstration
10:45 - 11:00	Break				
11:00 - 12:00	Changes in Process Safety Standards and How They Apply to You	Vibration Based Monitoring for Predictive Maintenance Applications	"SMART" Radar level for your control needs	ThinManager Delivering and Managing Content in the Connected Enterprise	
12:00 - 1:00	Lunch				
1:00 - 2:00	Migration Tools to Convert Your Legacy DCS and PLC-5 Systems to the PlantPAX System	Advanced Analytics in the Modern Plant	Improving your Production and Quality with MES	ThinManager Delivering and Managing Content in the Connected Enterprise	PlantPAX Overview and Demonstration
2:00 - 2:15	Break				
2:15 - 3:15	A Case Study in Project Methodology and Execution	Is Your Organization Ready to Support Connected Manufacturing?	"SMART" Commissioning & Start Up for your plant devices	Leveraging the Benefits of Integrating Your Power and Automation Control Systems	
3:15 - 5:00	PTU Tours and Networking will be at the conclusion of the sessions until 5:00 pm
